Kimberly Horan

Final Assignment Data Analysis Checkpoint 1

Business Issue:

Who doesn't love chocolate? A small craft chocolatier who wants to make the world's best chocolate bar has come to you for help.

By analyzing the chocolate bar database you are hoping to get an understanding of what goes into making a superb bar, from beans to ingredients to flavor profiles that rank the best. And what ranks the worst in order to avoid. Providing insights to the chocolatier to help them go for **GOLD** at the Chocolate Bar Awards hosted each year by [The International Chocolate Salon](#).

DataSet: [Chocolate Bar 2020](#)

With additional information found at [Flavors of Cacao](#).

* Note this project contains information from the **[Chocolate Bar 2020](#)** database which is made available under the [ODC Attribution License](#).
